Our Mission

“To transform and sustain the health of our community through a passion for excellence in personalized medicine.”

Minor & James Medical's history began in 1959 when a group of the most respected physicians in Seattle joined forces to create a premier medical clinic. The tradition of excellence continues today. It is our goal to set the standard for superior medical care. In support of this goal, Minor & James Medical is committed to integrity, quality and innovation in health care.

INTEGRITY ~ Patient First

Your trust is important to us. Safe medical practices are paramount at Minor & James Medical. Our electronic practice management software and electronic medical records provide seamless integration of your medical services and records, allowing us to deliver the fastest, most accurate care possible. Your privacy is well protected.

Your time is valuable and we offer one-stop convenience for all of your medical needs. Our on-site clinical services enable you to receive complete service in one location.

These services can include:

- Laboratory
- Imaging
- Infusion
- Coumadin Clinic
- Surgery Center
- Endoscopy Suites

Your needs will be met by our staff and physicians. It's their mission to provide personalized medicine and offer you as many options as possible. Regardless of your medical needs, we have a first-rate physician available to help you at several locations in the greater Puget Sound area. For a complete list of locations, please see the back cover.

*"The staff are kind,
supportive and reassuring.
They are great doctors,
very knowledgeable,
very reassuring and very
kind - I already have
recommended them
to a friend."*

Integrity, Quality & Innovation

QUALITY ~ Excellence in Medicine

Minor & James Medical physicians are among the finest in Seattle. They are leaders in medical diagnosis, treatment and education.

Our team strives to improve the overall health of our community. Our constant effort to improve our practices translates into extraordinary approaches to improve your health care.

Our physicians are regularly chosen as the “best” or “top” doctors in Seattle by their peers.

- Dr. Alex Sytman - Cardiology
- Dr. Robert Winrow, MD – Nephrology
- Leslie Wong, MD – Nephrology
- Leslie Yen, MD – Sports Medicine
- Roman Wong, MD – Vascular Surgery

INNOVATION ~ New Technology

Minor & James Medical uses advances in technology to improve patient care. We were quick to adopt electronic medical records so patient records can be accessed by physicians from multiple clinic locations.

Our award-winning website features streaming physician videos and profiles. You can learn about your physicians and make your choices based not only on top qualifications but also personality and patient care philosophies.

Our clinics utilize the newest advances in medical equipment and technology. This includes cardiology's new nuclear medicine suite, our 64-slice CT scanner, digital imaging and much more.

Did you know...?

Minor & James Medical gives back to the community through our charity program Minor & James Cares.
